LOTO START FROM "3022YS"

BOZZYS LOCKOUT

BOZZYS® LOCKOUT

■ CERTIFICATION

Founded in 2011, Wenzhou Boshi Safety Products Co.,Ltd (WENZHOU BADYSAFE EQUIPMENT CO.,LTD.) is a professional safety lockouts manufacturer, specializing in safety padlocks, safety valve lockouts, safety cable lockouts, hasp lockouts, circuit breaker lockouts, scaffolding tags, lockout stations and so on.

Our company take an area of 7000 square meter and have more than 200 employees, including more than 30 technical backbones. Our company invest more than five million RMB to research and development new products according to market needs every year. And we have acquired many patents for appearance, function and invention (Circuit breaker switch lockout, Button switch lockout,ect). We have many products that fill in gaps in China or World, and we acquired CE certificate which is necessary for European market, International explosionproof certificate IECEx, ATEX certificate, OSHAS18001 certificate, ISO14001 certificate, ISO9001 certificate.

Our sales team is huge and we are still expanding our team. We sell safety lockout products to more than 70 countries, such as USA, UK, Australia, New Zealand, German, Russia, Poland, Uzbekistan, etc. So far our company has served some companies directly or through agents, include PetroChina, Sinopec, Jiatong Tire, Dongfeng Nissan, Huaxin Cement, etc.

Our company learns from other peers in the world and creates advanced manufacturing skill and safety concept, not only focus on new products' research and development, but also pay attention on our products' quality, providing our customers reliable goods and intimate service. We also fight to providing many company workers a professional, standardized and safe working environment.

Our company "Wenzhou Boshi Safety Products Co.,Ltd" registered the trademark in China, the United States, Canada, EU, Russia, South Korea and some South American countries in 2014 via its holding company "Wenzhou Boshi Electric Technology Co.,Ltd". Laid a solid foundation for selling Boshi Safety Lockouts overseas.

■ COMPANY CULTURE

Company philosophy: No martial art is indefectble, while the fastest speed is the only way for long success.
Company purpose: Dare to think, dare to do, dare to bear.
Company vision: No security accident caused by human negligence.
Operating principles: We are a team. We fight and share success together.
Code of conduct: To be good and honest.

■ OUR PARTNERS

Safety Lockout Industry Expert

BOZZYS® LOCKOUT
※ What is LOTO? (Lock out / Tag out = LOTO)

When the equipment or tool is being repaired, maintained or cleaned, the power source related to the equipment need cut off, so that the equipment cannot be started, and all energy sources (power supply, hydraulic source, air source, etc.) are turned off.

● **Lock out:** Lockout is using the safety and other equipment to lock the machine to isolate from unauthorized operations and ensuring each worker's safety until the work is finished.

● **Tag out:** Tagout is usingfor warning the people that the energy source or equipment is locked that can not operate optionally.

● **Disconnecting means:** One piece or one group equipment can disconnect the energy source or the power supply circuit.

● **LOTO:** In order to ensure that the equipment energy is turned off , the equipment is kept in a safe state. Prevent accidental injury to the staff or related person inside or next to the equipment caused by the equipment being accidentally operated.

※ Why should use LOTO?

LOTO is in order to prevent the workers from the danger that caused by the machine start accidentally, the equipment launch abnormal, the energy source release when the worker want to repair or maintain it. So that it can keep the workers personal security. The Key of LOTO is cut off the connection between machine and power source, lock on the source, release residual power.

※ Regulations and standards for LOTO

China sets national standards for lockou

● In 2009, the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China and the China National Standardization Administration issued the national standard GB / T2.2–2009 Safety Requirements for Electrical Equipment Application Sites–Part 2: Safety Measures for Operation in Power–off.

● On May 12, 2017, the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China and the National Standardization Administration of the People's Republic of China issued the National Standard GB / T 33579–2017 safety of machinery– control method of hazardous energy –lockout/ tagout. The national standard began machinery on December 1, 2017.

Interpretation of the national standard GB / T33579–2017 on the scheme of lockout/tagout:
Establishing a control system and use LOTO procedures to prevent accidental release or transmission of machine energy.

Requirements of the national standard GB / T33579–2017 on the process of lockout/tagout
Step one: Ready to turn off
Step three: Isolation machine
Step five: Stored energy release
Step seven: Unlock / tag out control

Step two: Turn off the machine
Step four: Place lock out / tag out device
Step six: Verification of isolation

The corresponding laws and regulations of major European and American countries on lockout/tagout
● American ─ OSHA 《Controlling of dangerous energy(LOTO)》The Control of Hazardous Energy(Lockout/Tagout) 29CFR 1910.147
● Australia ─ OSHA European Decree ─《European Regulations on safety and Health at Work》European Agency for Safety and Health at work
● EU ─《National Factory Standards》National Standard for plant 【NOHSC:1010】

Wenzhou Boshi safety lock products fully comply with the regulations, and the following requirements for safety locks and lockout devices

Requirement	Durable	rugged	standardized	identifiable	other security purposes
Description	It is made ofmaterials that are resistant to various environments	cannot be removed unless use violence force	clear distinction is made by the difference in color, shape, or size,	indicating that authorized personnel	using for controlling equipment energy only
BOZZYS Lockout Products	√	√	√	√	√

※ When & Where should use LOTO?

● Daily maintenance, adjustment, cleaning, inspection and commissioning for equipment. Enter into the limited space, hot work, dismantling work and so on in the tower, tank, electrified body, kettle, heat exchanger, pumps and other facilities.
● Operation involving high voltage. (including the operation under the high–tension cable)
● Operation require closing the safety system temporary.
● Operation during maintenance and commissioning of non–processing.

※ LOCKOUT & TAGOUT REQUIREMENTS

● When some persons are authorized to perform the same task, each staff must complete its own lockout and tagout process, rather than others.

● Never authorize others to remove your lockout device.

● Only operate the device that has been locked by safety lockout.

● When you shift,must not arbitrarily terminate the original lockout device listing until the carry personnel is in accordance with the requirements ofthe lockout tagout, then remove the original lockout or tagout. At the same time, the new carry personnel should confirm the LOTO is safe andreliable before operation.

● Never let your security rely on others' LOTO, always remember use your safety lockout protect yourself.

● Use the correct lockout, so please find the item in the catalog according to the actual situation.

● Make sure that safety lockout is able to withstand the environment in which it is located like dusty, humid and so on.

● Safety lockout and safety tagout should be combined in usage, and can not replace each other.

● Since 2rd January, 1990, whenever the machinery and equipment change, overhaul, remould or innovate, even install new machinery and equipment for the machines and equipment, the energy isolating device and the equipment should be designed to fit the safety lockout and tagout.

● Operators should test the ability control rules at least once a year, ensure the standard procedures and requirements are implemented. The authorizedemployees perform regular inspection, rather than the staff who perform energy control rules carry out testing.

● If there is a possibility that the storage of energy should be saved to reach the dangerous level. It should continue to be verified, repair or maintenancethe energy source, untill the danger don't exist.

● Whenever external maintenance personnel is take part in the maintenance activities within the permission, the site operators and the external operatorsshall inform lockout or tagout rules to each other.

※ THE PROCEDURE OF LOTO (LOCKOUT/TAGOUT)

STEP 1: PREPARE
Prepare to close the source of energy. The type of energy is electric energy,mechanical energy, air energy and so on. Besides the accident this energycause. Prepare the lockout and tagout.

STEP 2: NOTICE
Notice the person who effect on isolating and protecting the machine and the manager who is working with the machine.

STEP 3: CLOSE
Close the machine or equipment.

STEP 4: LOCK
Lock the closed equipment or machine after make sure that nobody turn on the valve and the switch. Then you can affix on the warning label or lock wittag to avoid operate miss.

STEP 5: TEST
Test all equipment and circuit make certain all of them have been locked out.

STEP 6: MAINTAIN
Maintain the machine according to the applied situation of the equipment.

STEP 7: RECOVER
Recover the equipment and circuit while remove the lockout and tagout. And inform all workers after provide the energy.

※ KEY CHARTING SYSTEM FOR SAFETY PADLOCKS

1. Keyed Differ Systcm (KD): Each padlock is keyed differently. 30,000pcs individual padlocks is available. It's one of the lowest open each other rate inthe lock core technology on the market currently, lower than using dentate key whose open each other rate is about 1/5000.

2. Keyed Alike System (KA): Each padlock is keyed the same. 1 key will open all padlocks in each group.

3. Differ&Master Key System (MK): A master key will override and open any of these padlocks.
In the group with l master key, 190pcs of sub key can't open each other padlocks, and every master key can't open each other, either.
In the group with l master key, there are 10pcs (or below 10pcs) of sub key that can't open each others, the master key can be used for 100groups and each master key can't open each others.
In the group with l master key, 2,000pcs of sub key can't open each others, the open each rate is 5/10,000.

4. Alike&Master Key System (KAMA): Each padlock is keyed the same in one group. A master key will override and open all groups of alike keyed. If need the master key, please inform us.

★ Except jacket padlocks and the layer padlocks, others are all available with a management key system. If the management system keys require more complicated grouping methods, please contact the manufacturer.
※ THE COLOR OF KEY

● We can provide 8 kinds of different colors. (as picture 1)

● For example, the coat of master key is black, the sub key is uncoated, then can findthe master key easily. (as picture 2)

● Different department use different colors. For example the red padlocks with redkeys are allotted to electrical maintenance department; the yellow groups allot fitter department; the bule groups are allotted production department. In this condition, the color can stand for the responsibile department, manage easily. (as picture 3)

※ KEY REGISTER MANAGEMENT

● We can register the code that laser print on the padlock and key. In the case that youPicture 3lost the padlock or the key, we can make the new one depend on the code for you. (as picture 4)
※ LOGO / LABEL CUSTOMIZATION

● The company can provide trademark / label customization for each padlock. If you need customization, please contact the manufacturer.

SAFETY PADLOCK
LOCKOUT TAGOUT

◼ CUSTOM MADE PADLOCK LOCK SHELL

A type　　　　B type　　　　C type　　　　D type　　　　E type

DANGER LOCKED OUT DO NOT REMOVE

Copper cylinder　Copper cylinder key　　Zinc alloy cylinder　Zinc alloy cylinder key

● common type (copper/zinc alloy cylinder)
Key retention–the key cannot be pulled out in the open state, ensuring that the Key will not be left behind.

● Auto–popup padlock (zinc alloy cylinder)
Lock shackle with self–elastic function When the padlock is opened, the key is automatically reset to the initial position and the key can be removed.
Padlock can be equipped with dustproof:

Dustproof shackle and padlock bottom, can customize dust–proof cover.

Shackle Type:

steel/stainless steel shackle　　nylon shackle　　short/ultra short shackle

Long steel shackle　　Long nylon shackle　　Cable shackle

With rewritable safety warnning signs(can customize luminous PVC material);
Language: Chinese, English, Spanish, Portuguese, Russian, Korean, Thai and other customized company logo, departments, etc.

Other colors can be customized.
Durable non–conductive PA lock body, withstand temperature from –20℃ to 150℃, resistance of UV rays.

Can print key number

Logo OEM (Metal)

Warning Signs

Recorded Code

(Back) management labels can be customized

Standard body type (EB type)

F type

3OZZYS® LOCKOUT

New - G type lock shell
Outdoor engineering safety padlock

Ultrasonic padlock
○ Creative lock shell
○ Anti–rust, anti–ultraviolet and dust–proof
○ Multi color customization

Non–slip side
more friction

Lock front and back safety stickers
can be repeatedly erased safety warning slogans, language stickers can be customized

Zinc alloy key
sturdy and durable

Lock beam
304 stainless steel beam

Curved edge
round and comfortable to hold

Product number
custom laser coding can be printed

· Dust–proof rubber ring in lock beam hole

· Internal copper lock core

· Bottom keyhole dust plug

SAFETY PADLOCK
a. Durable, lightweight with non–conductive PA lock body, withstand temperature from –57℃ to +177℃, shock resistance; the shackle is Chrome plating; the non–conductive shackle is made from Nylon, ensure the strength and deformation fracture not easily.
b. Contain "DANGER" and "PROPERTY OF" standard labels on front and back. Labels language can be customized.
c. Resistance of chemical, extreme temperatures and UV rays.
d. Key retaining to ensure the padlocks are not left unlocked.
e. Laser key numbers or print logo on body sides or the front or the back.
f. 5 types of body and 8 colors for your choice.
g. Can customized luminous PVC labels.

The solid structure of the lock body can withstand a strong external force.

Made from aluminum with anodization treatment, provide with label and laser printing if necessar.

Key retaining: when the shackle is open, the key can not be removed, to ensure padlocks wont be left unlocked.

Master Key

① ② ③ ① ② ③
Key A Key B
Each group quantity depends on your needs. Each group quantity depends on your needs.
Master Key

Keyed differ system: each padlock with separate keys,padlocks can not open mutually. (eg: BD–G01KD)
Keyed alike system: each padlock keyed the same. 1 key will open all padlocks in each group. (eg: BD–G01KA)
KDMK: Master key system, each padlock in the group has a separate key, and the padlocks cannot be opened mutually, but a master key can open all safety padlocks in the group. (eg: BD–G01KDMK)
KAMK: Each padlock is keyed the same in one group, A master key will override and open groups of keyed alike. (eg: BD–G01KAMK)
※ If require more complex key system groups, pls refer to this page or contact us.

LOCKOUT TAGOUT

LOCKOUT TAGOUT

LOCKOUT TAGOUT

a. Lockout tagout can be used to make a holistic contrlo of the equipment to protcet workers from accident and equipment from damage.
b. Use with padlock to remind that the debice has been locker and can not be operated. It can only be opened by the one who lock it. It enables penople to know who lock it and so that they keow ti is danger to operate the debice.
c. On the tag, you can see "Danger/Do not operate/caution" etc security warning language and also "Name/department/Date" etc blank for you to fill in.
d. Offer language customization.

SAFETY LOCKOUT HASP
LOCKOUT TAGOUT

■ PA COATED STEEL HASP
BD-K01 BD-K02

BD-K03 BD-K04

BD-K21 BD-K22

BD-K23 BD-K24

● Pa coated steel hasp

a. Made from Engineering plastic nylon PA injection molding, galvanized rustproof surface.
b. Lock hole diameter: 10.5mm(2/5").
c. Lock shackle diameter: 25mm(1") & 38mm (1.5").
d. Such as custom made stainless material, the model behind plus "S".

Part Code	Specification
BD–K01	Lock shackle 25mm(1")
BD–K02	Lock shackle 38mm(1.5")

● Economic steel hasp

a. Made from steel materials, high temperature spray plastics and rust treatment.
b. Lock hole diameter: 10.5mm(2/5").
c. Lock shackle diameter: 25mm(1") & 38mm(1.5").

Part Code	Specification
BD–K03	Lock shackle 25mm(1")
BD–K04	Lock shackle 38mm(1.5")

● Steel hasp with hook

a. Made from Engineering plastic nylon PA injection molding, galvanized rustproof surface.
b. Lock hole diameter: 10.5mm(2/5").
c. Lock shackle diameter: 25mm(1") & 38mm(1.5").
d. Hooks are provided to avoid self–opening of hasps.

Part Code	Specification
BD–K21	Lock shackle 25mm(1")
BD–K22	Lock shackle 38mm(1.5")

● Economic steel hasp with hook

a. Made from durable steel, high temperature spray plastic and rust treatment.
b. Lock hole diameter: 10.5mm(2/5").
c. Lock shackle diameter: 25mm(1") & 38mm(1.5").
d. Hooks are provided to avoid self–opening of hasps.

Part Code	Specification
BD–K23	Lock shackle 25mm(1")
BD–K24	Lock shackle 38mm(1.5")

ALUMINUM BUCKLE LOCK

BD-K71

BD-K72
● Butterfly lockout hasp

a. BD–K31 and BD–K32 lock bodies are made of reinforced steel with galvanized rustproof surface.
  BD–K33 and BD–K33X lock body and beam of are made of stainless steel.
  BD–K34 lock body is made of ABS material, and the lock beam is made of 304 stainless steel.
b. Hard to pry, sturdy and durable.

Part Code	Specification
BD–K31	Accommodate 6 padlocks at most
BD–K32	Accommodate 10 padlocks at most
BD–K33	Accommodate 7 padlocks at most
BD–K33X	Accommodate 8 padlocks at most
BD–K34	Accommodate 2 padlocks at most

● Double-end steel hasp

Part Code	Specification
BD–K05	a. Handle material: Engineering Plastics Nylon Lock body material: high strengthened steel b. Padlock hole diameter: 10.5mm(2/5") c. Lock shackle diameter: 25mm(1")
BD–K62	a. Lock body material: high strength steel Surface: Anti–rust galvanized treatment underhigh temperature. b. Hooks in two ends are different, having double functionsc. c. Up to 6 padlocks can be accommodated.
● Aluminum buckle lock

a. Made from aluminum alloy.
b. Lock hole diameter 8mm.
c. Suitable for multi–person lock management.

Part Code	Specification
BD–K71	Accommodate 12 padlocks at most
BD–K72	Accommodate 24 padlocks at most

BD–K11

BD–K12

BD–K13

BD–K14

BD–K51

BD–K52

BD–K53

BD–K54

BD–K61

● Aluminum hasp

a. Hasp handle is Injected with Engineering plastic nylon PA. Hasp hook is die–casted with National standard aluminum.
b. Lock hole diameter: 10.5mm(2/5").
c. Lock shackle diameter: 25mm(1") & 38mm(1.5").

Part Code	Specification
BD–K11	Lock shackle 25mm(1")
BD–K12	Lock shackle 38mm(1.5")

● Aluminum hasp

a. Hasp handle is Injected with Engineering plastic nylon PA. Hasp hook is die–casted.
b. Lock hole diameter: 8mm.
c. Lock shackle diameter: 25mm(1") & 38mm(1.5")

Part Code	Specification
BD–K13	Accommodate 6 padlocks at most
BD–K14	Accommodate 8 padlocks at most
● Aluminum lockout hasp

a. BD–K52 and BD–K53 are made of super strong oxidized aluminum alloy.
  BD–K51 lock body of is made of stainless steel and the lock beam is made of aluminum.
  BD–K54 is made of stainless steel and aluminum. Combine traditional hasp and tag.
b. The combination of label and hasp not only greatly
c. improves the applicability of the product itself, but also makes the heat–resistant design of the tag applicable to a variety of environments.
d. Labels can be writed on with pens.
e. All colors are available.

Part Code	Specification	Color
BD–K51	Accommodate 6 padlocks at most	yellow
BD–K52	Accommodate 9 padlocks at most	red, yellow, blue... ...
BD–K53	Accommodate 7 padlocks at most	
BD–K54	Accommodate 6 padlocks at most	red

● Double-end aluminum hasp

a. High fire–resisant aluminum alloy.
b. Or anti–oxidation treated by high–temperature surge anti rust treatment.
c. Double ends are different sizes, two functions.

Part Code	Specification
BD–K61	Accommodate 8 padlocks at most

■ NYLON LOCKOUT HASP

BD-K41

BD-K42

● Nylon lockout hasp

a. High fire-resistant aluminum alloy.
b. Apply to places where need electric power isolation and lock and has high requires about corrosive and explosion-proof.
c. Opening: push up and down.

Part Code	Specification
BD-K41	Accommodate 6 padlocks at most
BD-K42	Accommodate 6 padlocks at most
BD-K43

BD-K44

● Nylon lockout hasp

a. Made from PP.
b. Apply to place where electric power isolation and lock, high require-ment of corrosive or explosion-proof places.
c. Side opening.

Part Code	Specification
BD-K43	Accommodate 6 padlocks at most
BD-K44	Accommodate 3 padlocks at most

BD-K45

BD-K46

● Nylon lockout hasp

a. The lock beam is made of American Dupont, and the lock body is made of alloy engineering plastic.
b. Suitable for power isolation place, with high requirements of corrosive or explosion-proof places.
c. Advantages: small and exquisite appearance, suitable for 3~6mm keyhole. Both sides can be written with ink pen.
d. Allow to 4 padlocks.

Part Code	Specification
BD-K45	Lock shackle diameter 3mm
BD-K46	Lock shackle diameter 6mm
BD-K73

● Padlock clasp lock

a. Made from aluminum alloy.
b. 12 key holes diameter 7mm.
c. Suitable for several people locking management and usage.
d. Single layer thickness: 2mm.

Part Code	Specification
BD-K73	Accommodate 12 padlocks at most

ELECTRICAL LOCKOUT
LOCKOUT TAGOUT

■ MINIATURE CIRCUIT BREAKER LOCKOUT

a. Made from engineering plastic strengthened nylon PA.
b. Fit most existing types of European and Asia Circuit Breaker.
c. Easily installed with the aid a push button or rotate roller.
d. Available for single and multi-pole circuit breaker.
e. Recommended to use in combination with a padlock for added safety.
f. Can use padlocks with a shackle diameter up to 7mm.

Pin on standard
BD-D01

Pin in standard
BD-D02

Part Code	Description
BD-D01	POS (Pin Out Standard), hole spacing ≤12mm
BD-D02	PIS (Pin In Standard), hole spacing ≤12mm
BD-D03	TBLO (Tie bar Lockout)
BD-D04	POW (Pin Out Wide), hole spacing≤20mm

Tie bar lockout
BD-D03

Pin out wide
BD-D04

CLAMP-ON BREAKER LOCKOUT

a. Made from rugged polypropylene PP and impact modified PA.
b. A wide range of applications, suitable for a variety of medium – sized
c. built–in tripping plastic case circuit breakers.
   Use thumbscrew to clamp lockout securely onto switch tongue, then pull
   cover and lock in place to prevent clamp from being loosened.
d. New blade design provides tighter grip with less torque on thumb screw.
e. Detachable cleats expand the range of appicable breakers.
f. The lockouts can take padlocks with a shackle diameter up to 7mm.
g. The base can clamp the bottom of the lock body very easily.
h. Long sliding splint ensures locking of the circuit breaker.

BD–D12
Lockable range: 13mm × 38mm

BD–D11
Lockable range: 10mm × 16mm

BD–D13
Lockable range: 22mm × 68mm

Part Code	Description
BD–D11	Can lock handle width ≤18mm
BD–D12	Can lock handle width ≤42mm
BD–D13	Can lock handle width ≤72mm

REFORMATIVE CLAMP-ON BREAKER LOCKOUT

a. Made from rugged polypropylene PP and impact modified PA.
b. A wide range of applications, suitable for a variety of medium – sized built–in
c. tripping plastic case circuit breakers.
   Use thumbscrew to clamp lockout securely onto switch tongue, then pull
   cover and lock in place to prevent clamp from being loosened.
d. New blade design provides tighter grip with less torque on thumb screw.
e. Detachable cleats expand the range of appicable breakers.
f. The lockouts can take padlocks with a shackle diameter up to 7mm.
g. The base can clamp the bottom of the lock body very easily.
h. Long sliding splint ensures locking of the circuit breaker.
i. Compared with the old models,the new one is not easy to be broken.

BD–D12X
Lockable range: 13mm x 38mm

BD–D11X
Lockable range: 10mm x 16mm

BD–D13X
Lockable range: 22mm x 68mm

Part Code	Description
BD–D11X	Can lock handle width ≤18mm
BD–D12X	Can lock handle width ≤42mm
BD–D13X	Can lock handle width ≤72mm

MULTI-FUNCTION MINIATURE BREAKER LOCKOUT

a. Made from engineering plastic strengthened nylon PAand chrome plated brass screw.
b. With locking screws, can be locked without tools.
c. Widely used: applicable to all kinds of small and medium sized MCCB,
   and anyminiature circuit breaker.
d. Can be customized stainless steel brand.

φ 8mm

9mm

Part Code	Description
BD–D14	Allow 1 padlock with shackle diameter ≤7mm
LARGE TYPE CIRCUIT BREAKER LOCKOUT

a. Made fom engineering plastic strengthened nylon PA and chrome plated brass screw.
b. With locking screw, no need other tools to lock, The unique design of the U stainless
   steel sheet makes it more firm.
c. Widely used: for a large variety of MCCB (handle thickness ≤20mm) and special
   button type of circuit breaker, BD–D16L is suitable for few closed old long MCCB.
d. Can be customized stainless steel brand.

41mm / 33mm
BD–D16
20mm / 43mm
BD–D16L
Part Code	Description
BD–D16	Locked with 1 padlock, lock shackle ≤7mm
BD–D16L	With "L" can be locked closing old longer MCCB Locked with 1 padlock, lock shackle≤7mm

MULTI-FUNCTION CIRCUIT BREAKER LOCKOUT

a. Made from rugged reinforced nylon and chrome plated brass screw.
b. Comes with locking screw, can lock conveniently by itself without tools.
c. Widely used, suitable for middle size circuit breaker (handle width≤20mm).
d. Unique U shape stainless steel insert plate, can ensure there is no swing after lock.
e. Can be customized stainless steel brand.

φ8mm
20mm
20mm
φ11.7mm

With pedal

Without pedal

Part Code	Description
BD-D15	Can accommodate one safety padlock with shackle diameter≤7mm
BD-D15W	"W"means there is no pedal under the lock bottom,can accomodaleone safety padlock with shackle diameter≤7mm.

BIDIRECTIONAL MEDIUN CIRCUIT BREAKER LOCKOUT

a. Made from Die-cast aluminum lloy & Nylon & ABS, The surface sprays meta.
b. With locking screws, can be locked without tools.
c. Widely used, suitable for small and medium sized circuit breaker (handle≤12mm).

83mm
φ8mm

Part Code	Description
BD-D17	7.5mm ≤ a ≤ 12mm
MEDIUM CIRCUIT BREAKER LOCKOUT

a. Made from Die-cast aluminum alloy & Nylon & ABS, The surface sprays metal.
b. With locking screws, can be locked without tools.
c. Widely used, suitable for small and medium sized circuit. breaker(handle width < 16mm)

φ8mm
85mm
a
30mm 27mm

Part Code	Description
BD-D18	8mm≤a≤16mm
MULTISTAGE MINIATURE CIRCUIT BREAKER LOCKOUT

a. Made from Nylon & ABS.
b. With locking screws, can be locked without tools.
c. Widely used, suitable for small size circuit breaker (handle<15mm).

BD-D20

a

Part Code	Description
BD-D20	7mm≤a≤15mm
SNAP-ON BREAKER LOCKOUT

a. Made from engineering plastic reinforced nylon PA.
b. Easy using- snap in right position, it is locked.
c. Suitable for seldom miniature circuit breaker with the special handle. (as picture)

Part Code	Description
BD-D06	A single pole lockout, requires a switch breaker with a recessed hole in it
BD-D07	A double pole lockout, requires the breaker to be connected with a cross bar
BD-D08	A single pole lockout, does not requires a switch breaker a recessed hole init
BD-D09	A double poles lockout, similar to D07 but slightly larger to accomodate larger breakers

BD-D06   BD-D07   BD-D08   BD-D09
SELF-LOCKING MEDIUN CIRCUIT BREAKER LOCKOUT

a. Made from rugged reinforced nylon and chrome plated brass screw
b. Comes with locking, screw, can lock conveniently by itself without tols.
c. Widely used,suitable for handle width<12 mm,Keyhole diameter 8.6 mm.

Part Code	Description
BD–D24	With pedal
BD–D24W	Without pedal

5mm
φ8.6mm
12mm
BD–D24W

Part Code	Description
BD–D100	A：46mm；a x b x c：78mm x 29.5mm x 35mm
BD–D110	A：50mm；a x b x c：96mm x 28mm x 47mm

BD–D110   BD–D100

MULTI - FUNCTION ADJUSTABLE MEDIUM BREAKER LOCKOUT

a. Made from strong and durable strengthened nylon.
b. Keyhole diameter≤7.6mm.
c. Suitable for medium and miniature breaker.

Part Code	Description
BD–D200	The above width of the side: 14.1mm, the below width 1 5.2mm

50mm
27.5mm
φ7.6mm
480V~600V BREAKER LOCKOUT (BREAK BLOCKER COMPONENTS)

a. Made from engineering plastic alloy.
b. Back self–adhesive track can fix on the distributor forever– clean the surface of the distributor no hole needed.
c. To lock the special large or unique shape switch, the length of the rod is 19cm.
d. Red stop rod mains the switch is in the off state, green stop rod means the switch is on state.
   Note: The following two products are equipped with backing adhesive.

Part Code	Description
BD–D22	Can accommodate two safety padlocks with shackle diameter ≤ 7mm
BD–D22–2	Universal knife gate––main rod length is 195mm

BD–D22
Backing adhesive
(The choke bar can be placed independently)

BD–D22–2
SNAP-ON BREAKER LOCKOUT

a. Made from rugged polypropylene and impact modified nylon PA.
b. Snap in place and apply lock.
c. Double control design, suitable for different sizes switch button.
d. Suitable for seldom mini circuit breaker with holes on the two sides of the handle.

Part Code	Description
BD–D21	Can accommodate two safety padlocks with shackle diameter ≤ 7mm
INDUSTRIAL WATE PROOF PLUG LOCKOUT

实用新型专利

a. Made from engineering plastic PC material.
b. Suitable for locking kinds of industrial waterproof plugs.

Part Code	Description
BD–D46	Suitable for 16–125A industrial waterproof plug

POWER HANDLE LOCKOUT

a. The body is made from ABS.
b. Suitable for switch of handle type
c. Can be fixed on electrical board with strong self– adhesive glue.
   At the same time, it has installing hole and can also be fixed by screw.

Part Code	Description
BD–D25	8mm≤a≤16mm

3M glue
PIN OUT MINIATURE BREAKER LOCKOUT

a. The body is made from PBT.
b. For locking small size circuit breaker.
c. The lockouts can take padlock with a shackle diameter up to 8mm.
d. Color: yellow, can be customized.

Part Code	Description
BD–D27	suitable for small sized circuit breaker

18mm

26.5mm

36.5mm

BD–D27

3
PIN OUT SCHNEIDER MINIATURE BREAKER LOCKOUT

a. The body is made from PA66+ABS.
b. For locking Schneider special circuit breaker.
c. The lockouts can take padlock with a shackle diameterup to 6mm.
d. Color: yellow, can be customized.

Part Code	Description
BD–D28	suitable for Schneider special circuit breaker

MEDIUM CIRCUIT BREAKER LOCKOUT

a. Made from PC,sturdy and durable.
b. Comes with locking screw,can lock conveniently by itself without tools.
c. Applicable max handle size: 75mm (width)* 23 (thickness)
d. Widely used,suitable for large and medium sized circuit breaker.
e. Allow 3 padlocks with lock shackle ≤ 8mm.

Part Code	Description
BD–D29	Three–poles or four–poles molded case circuit breaker Molded case circuit breaker opening position minimum size≥19mm
• By adjusting the position of the self–contained screw, fasten the breaker handle, prevent abnormal closing of the circuit breaker,ensure safety.

23mm

75mm

19mm

INDUSTRIAL PLUG LOCKOUT

a. Made from PP,sturdy and durable.
b. Suitable for locking kinds of industrial plugs.
c. Allow 4 padlocks to lock at the same time.
d. Different colours can be customized.
e. Keyhole diameter: 9.5mm.
BD–D33

Part Code	Description
BD–D33	Length*width*height: 185mm*107mm*79mm Applicable plug range: length≤120, diameter≤69 (mm)

185mm

107mm

INDUSTRIAL PLUG LOCKOUT

a. Made from PP,sturdy and durable.
b. Suitable for locking kinds of industrial plugs.
c. Allow 4 padlocks to lock at the same time.
d. Different colours can be customized.
e. Keyhole diameter: 10mm.

BD–D34

Part Code	Description
BD–D34	Length*width*height: 315mm*161mm*137mm Applicable plug range: length≤261, diameter≤114 (mm)

137mm

161mm

315mm

BD-D34
ELECTRICAL PLUG LOCKOUT

a. Made from rugged polypropylene.
b. Double open and hexagon lockout design, suitable for all kinds of industrial plugs.
c. Accommodates 2 to 4 pieces padlocks with shackle diameter less than 7mm to lock it at thesame time.

Width

Thickness

Part Code	Description
BD–D41	51mm(height)*51mm(thickness)*89mm(width), for cable diameter 13mm
BD–D42	65mm(height)*65mm(thickness)*118mm(width), for cable diameter 20mm
BD–D43	83mm(height)*83mm(thickness)*178mm(width), for cable diameter 25mm

ELECTRICAL/PNEUMATIC PLUG LOCKOUT

a. Made from ABS material.
b. Double open and quadrilateral lockout design, suitable for all kinds of electrical and pneumatic plug (max diameter 89mm, max length 127mm) and air hose external screw threadadaptor.
c. The hole in the lockout can lock cable and the bent down pneumatic external screw thread accessory.
d. Accommodates 4 pieces padlocks with shackle diameter less than 7mm to lock it.

170mm

97mm

φ7mm
95mm

Part Code	Description
BD–D31	97mm(height) *95mm(thickness) *170mm(width), can lock 5 kinds of pneumatic plug lockout with diameter: 9.5mm, 10.4mm, 11.4 mm, 12mm, 18.2mm;

INDUSTRIAL WATERPROOF SOCKET LOCKOUT

a. Made from PP material, to lock industrial socket bottom.
b. With hasp to lock industrial waterproof socket.
c. Can accommodate several padlocks to lock it at the same time with hasp.

Part Code	Description
BD–D45	Means one series, each type one piece, 5 pieces in total.
BD–D45–1	Lockout body diameter 40mm, suitable for mini size industrial socket
BD–D45–2	Lockout body diameter 52mm, suitable for mini and middle size industrial socket
BD–D45–3	Lockout body diameter 55mm, suitable for middle size industrial socket
BD–D45–4	Lockout body diameter 62mm, suitable for middle and large size industrial socket
BD–D45–5	Lockout body diameter 72mm, suitable for large size industrial socket

72mm

55mm

52mm

62mm

40mm
SIMPLE CIRCUIT BREAKER LOCKOUT

a. Made from rugged reinforced PA.
b. Can lock it with screw driver.
c. Can accommodate one safety padlock with shackle diameter≤7mm.
d. Can lock all kinds of circuit breakers.

Part Code	Description
BD–D05	Means one series, each type one piece, 6 pieces in total.
BD–D05–1	Suitable for single pole miniature circuit breakers with handle width≤7.7mm
BD–D05–2	Suitable for 2 to 4 poles miniature circuit breakers
BD–D05–3	Suitable for mini and middle size circuit breakers with handle
BD–D05–4	width≤5mmSuitable for mini and middle size circuit breakers with handle width≤5mm
BD–D05–5	Suitable for large size circuit breakers
BD–D05–6	Suitable for mini size circuit breakers with handle width≤9.3mm middle size circuit breakers with handle width≤12mm

DOUBLE-END LOCKS

a. Made from Steel .
b. Suitable for Schneider NSX accessory locking equipment Molded case circuit breakers.
c. Several person management and usage.

37mm

32mm

φ8mm

Part Code	Description
BD–K63	Suitable for Schneider special circuit breaker
LOCKOUT BAG

a. Made from wear resisting polyester cloth.
b. With PVC liner to prevent others to contact the button of the elevator controller.
c. With enough space can lock many kinds of driving controller button, or all kinds of special large size plug and accessories.
d. Warning labels available.

Part Code	Description
BD–D71	To lock by adjust the bag mouth, 6 padlocks or hasps can be equipped with
BD–D71–2	Cable lockout need to buy separately

440mm

250mm

LOCK OFF FOR SAFETY

MULTIFUNCTION INDUSTRIAL ELECTRICAL LOCKOUT

a. Made from engineering plastic alloy and A3 galvanized seplte.
b. can lock kinds of non–standard electrical products of distribution.
c. It is fixed by 3M glue or screw.
d. Lockouts with differ shape can be customized.
e. Base size: 54mm*51mm (ordinary accessory).

Part Code	Description
BD–D81–1	Lock knob switch, change over switch.
BD–D81–2	Lock button switch, the lock hole of the distribution cabinet.
BD–D81–3	Lock cabinet door, electrical handle hole, low voltage cabinet and so on.
BD–D81–4	Lock switch handle, change over switch of the drawer cabinet.
BD–D81–5	Lock knife switch, handle switch and so on.
BD–D81–6	Lock knob switch, change over switch.
BD–D81–7	Lock button switch, the lock hole of the ditriution cabinet.

ELECTRICAL HOLE LOCKOUT

a. Made from engineering plastic PC, rubber, screw and extrusion sheet.
b. Rotate the knob on the lockout, then the rubber is out of shape, it is locked.
c. Can custom made kinds of rubber hole stopple to lock non-standard electrical hole and computer's power socket.
d. Custom made different specification rubbers stopple according to electrical appliance hole to lock.

Rubber stopple

Part Code	Description
BD-D82	To lock kinds of non-standard shape, handles holes and so on
BD-D82-1	
BD-D82-2	
BD-D82-3	To lock kinds of non-standard shape, handles holes and so on,3 holes

BD-D82-1   BD-D82-2   BD-D82-3
EMERGENCY STOP LOCKOUT

a. Made from high strength transparent glass resin PC.
b. Install on the controller button forever, avoid accidentally touch.
d. Color: transparent, and red.

outer diameter
inner diameter
Height

Part Code	Description
BD-D51	Height: 31.9mm; outer diameter: 49.6mm; install hole; inner diameter: 22mm;
BD-D52	Height: 31.9mm; outer diameter: 49.6mm; install hole; inner diameter: 30mm.

EMERGENCY BUTTON LOCKOUT'S BASE

a. Used with emergency stop lockout, such as BD-D53-1, BD-D52.
b. Install on the controller button forever, avoid accidentally touch, easy to use.

BD-D50-1   BD-D50-2

Part Code	Description
BD-D50-1	suitable for button base's diameter: 16mm to 22mm
BD-D50-2	suitable for button base's diameter: 27mm to 32mm

EMERGENCY STOP LOCKOUT

a. Made from high-strengthened transparent glass resin PC.
b. Avoid dismantling, install easily, install the base on the bottom of the emergency stop switch,can lock and remove at random.
c. Install on the push or spiral release emergency stop button, avoid accidentally touch.
d. When no need to lock at ordinary time, leave the base at site, will not affect the operation at all. Put the cover to lock the base when necessary.

Part Code	Description
BD-D53	Three pieces in one set
BD-D53-1	Cover height: 49.3mm; outer diameter: 60mm
BD-D53-2	Inner diameter: 22/30mm base
BD-D53-3	Inner diameter: 22mm stainless steel base
BD-D53-4	Inner diameter: 34mm semicircle base, base can custom made with 3M glue.
BD-D55	Inner diameter*height*hole's diameter: φ65mm* 50mm*46mm.
BD-D56	Inner diameter*height*hole's diameter: φ55mm* 65mm*46mm.

BD-D58   BD-D58-1

UNIVERSAL WALL-TYPE SWITCH COVER

a. Made from engineering plastic ABS and acrylic.
b. English warning sign on the body is available.
c. Can be locked with safety padlock of shackle diameter≤7mm.

Part Code	Description
BD-D23	Length*width*thickness: 120mm*45mm*26mm

BD-D23

EMERGENCY STOP LOCKOUT

a. Made from high-strengthened transparent glass resin PC.
b. Install on the wall switch or change-over switch and other electrical appliances permanently, open it then operate, avoid accidentally touch.

Part Code	Description
BD-D54	Length: 50mm; width: 47.3mm; height: 50mm; diameter of installing hole: 20mm or 30mm.

BD-D54

EMERGENCY STOP LOCKOUT

a. Made from high-strengthened transparent glass resin PC.
b. Permanently installed on electrical appliances such as wall switches or transfer switches. Need to open the lock to operate to prevent accidental touch.
c. Design holes on the two sides. Can lock the wall plug. It is not easy to unplug.
d. Can fix it by automatic screw or 3M double sided glue.
e. Hole dimension Length*width: 74mm*74mm.

Part Code	Description
BD-D63	Suitable for 22mm, 30mm or 38mm switch lockout.

65mm

94mm

EMERGENCY STOP LOCKOUT

a. Made from high-strengthened transparent glass resin PC.
b. Permanently installed on electrical appliances such as wall switches or transfer switches. Need to open the lock to operate to prevent accidental touch.
c. Can fix it by self-tapping screw or 3M double sided glue.

Part Code	Description
BD-D64	Length*width*thickness: 158mm*64mm*98mm

11 × 13
64
158
98

STOCKET SAFETY COVER

a. Made from engineering plastic PP.
b. Available in two sizes to fit single and double sockets, single size will also fit standard light switches and some fuse holders.
c. Easy to operate, just loosen the screws on both sides of the socket, put the safety cover on it, then tightening screw.
d. Can accommodate padlock with max shackle diameter 7mm.
e. With the following two self-adhesive labels separately, stick on the safe cover, the dimension is70mm*50mm and 130mm*50mm sepatately.

Part Code	Description
BD-D61	Single socket cover
BD-D62	Double socket cover

BD-D62

BD-D61

BD-D61

BD-D62
CONTROL PANEL LOCKOUT

a. Made from acrylic panel.
b. With support rack design, can operate the panel conveniently.
c. Can fix it by automatic screw or 3M double-sided tape.
d. It is customized product, the base can be coated steel or transparent mask.
e. The default size: 220mm*220mm. height: 45mm.

Part Code	Description
BD-D65	Can lock kinds of appliance's touch panel
EMERGENCY STOP LOCKOUT

a. Transparent high-strengthened glass resin PC material.
b. No need disassemble, easy to install, just install the base on the bottom of the emergency stop switch. it can be locked and removed at will.
c. Permanently installed on the emergency stop button which can push-pull or screw release to prevent accidental touch.
d. According to the reserved holes of the lock, it can be locked with 2-4 safety padlocks with the diameter of the lock beam ≤ 7mm can be locked.

Part Code	Description
BD-D60-1	Base inner diameter, product inner height: φ27.5mm、42mm; Base size, product outer height: 35mm x 35mm、44mm;
BD-D60-2	Base inner diameter, product inner height: φ75mm、65.5mm; Base size, product outer height: 95mm x 95mm、68mm;
BD-D60-3	Base inner diameter, product inner height: 50mm x 50mm、60mm; Base size, product outer height: 66.5mm x 66.5mm、63mm;
BD-D60-4	Base inner diameter, product inner height: 70mm x 70mm、61.5mm; Base size, product outer height: 90mm x 90mm、64mm;
BD-D60-5	Base inner diameter, product inner height: 84mm x 84mm、100.5mm; Base size, product outer height: 104mm x 104mm、103mm;

ELECTRICAL PLUG LOCKOUT

a. Made of engineering plastic ABS.
b. Insulated and corrosion-resistant, durable and strong. Not easily deformed and resist impact.
c. The double-opening cylinder lock design can be used for safe locking of various industrial plugs.
d. Can lock 2 safety padlocks with shackle diameter ≤ 7mm together.

Inner dia

BD-D41A
SHIP-LIKE BUTTON SWITCH LOCKOUT

a. The main body is made of engineering PC plastic, which is waterproof, impact-resistant, insulated and anti-leakage.
b. The transparent cover realizes visual management. Easy to lock, easy to use, and prevent Prevent misoperation.
c. The 3M glue installation method is convenient and efficient

Part Code	Description
BD-D59	width*length: 26mm*32mm

32mm
26mm

SWITCH LOCKOUT

a. The main cover is made of sturdy and durable engineering PC plastic, and the base is made of PA material, which has good product stability.
b. The transparent cover realizes visual management, and the switch status of electrical appliances can be observed directly without unlocking operation, which is convenient to use.
c. The four-sided hollow keyhole design can realize the safe management of locking by multiple people, and the locking is convenient and safe.
d. The reserved hole design of the base is easy to install, and it can also be installed with 3M glue. Various installation and use methods are efficient and convenient.

Part Code	Description
BD-D66	Reserved holes on the base: 51mm x 51mm; Internal height: 48.5mm
50mm
Side aperture dia 19mm x 7 mm
74mm

SWITCH LOCKOUT

a. The main body is made of engineering PC plastic, which is waterproof, impact-resistant, insulated and anti-leakage.
b. The transparent cover realizes visual management. Easy to lock, easy to use, and prevent Prevent misoperation.
c. The 3M glue installation method is convenient and efficient.

Part Code	Description
BD-D67	Bottom of inner box: 70mm x 70mm;

60mm
80mm

PROTECTIVE COVER FOR MINIATURE CIRCUIT BREAKER

a. Made of reinforced nylon and transparent high-strengthened glass resin PC.
b. Easy to install. Just place the protective cover on the circuit
c. breaker, which can be locked and removed at will.
d. It can be used for various small circuit breakers.
   Can lock 2 safety padlocks with shackle diameter ≤ 7mm together.

VALVE LOCKOUT ‖
LOCKOUT TAGOUT

GATE VALVE LOCKOUT

a. BD–F11 ~ BD–F15: Engineering plastic nylon ABS;
  BD–F11T ~ BD–F15T: Engineering plastic nylon PC;
b. Lock the hand wheel diameter 25mm–330mm valve (As sheet description).
c. Locked by one padlock, lock shackle diameter 7mm.
d. Color: (BD–F11 ~ BD–F15: Red), other colors need to be customized; Tagout is available (BD–F11T ~ BD–F15T: Transparent).

BD–F11 ~ BD–F15 series

Part Code	Description	Hole diameter	inner height
BD–F11 / BD–F11T	Valve rod diameter: 25mm–64mm (1"– 2.5")	19mm	30mm
BD–F12 / BD–F12T	Valve rod diameter: 64mm–127mm (2.5"– 5")	44mm	35mm
BD–F13 / BD–F13T	Valve rod diameter: 127mm–165mm (5"– 6.5")	63mm	40mm
BD–F14 / BD–F14T	Valve rod diameter: 165mm–254mm (6.5"– 10")	90mm	60mm
BD–F15 / BD–F15T	Valve rod diameter: 254mm–330mm (10"–13")	105mm	60mm

inner height

BD–F11T ~ BD–F15T series
engineering plastic PC

NEW GATE VALVE LOCKOUT

a. Made froom imported DuPont engineering plastics.
b. The different size semicircle design, two parts can be combined into one when storing and carrying, reduce a half volume. Lock the hand wheel diameter 25mm–450mm (1"–18") valve (as sheet description).
c. Locked by 4 pcs padlocks, locked shackle diameter ≤7mm.
d. Color: red, other colors need to be customized. Lable can be customized.

Part Code	Description	Hole diameter	inner height
BD–F11A	Valve rod diameter: 25mm–64mm (1"– 2.5")	19mm	30mm
BD–F12A	Valve rod diameter: 64mm–127mm (2.5"– 5")	44mm	35mm
BD–F13A	Valve rod diameter: 127mm–165mm (5"– 6.5")	63mm	55mm
BD–F14A	Valve rod diameter: 165mm–254mm (6.5"– 10")	90mm	75mm
BD–F15A	Valve rod diameter: 254mm–330mm (10"– 13")	105mm	70mm
BD–F15plus	Valve rod diameter: 330mm–450mm (13"– 18")	123mm	65mm
BD–F15B	Valve rod diameter: 450mm–600mm (18"– 24")	130mm	63mm

inner height
Hole diameter

ADJUSTABLE GATE VALVE LOCKOUT

a. Made from polypropylene PP.
b. Lock range can be adjusted. Lock the hand wheel diameter 25mm–165mm(1"–6.5")valve.
c. Locked by one padlock, locked shackle diameter max 7mm.
d. Color: red, other colors need to be customized. Tagout is available.

Part Code	Description
BD–F16	Valve rod diameter: 25mm–165mm（1"– 6.5"）

BD–F16

内直径：17cm；
内高：4cm

BUTTERFLY VALVE LOCKOUT

a. Made from polypropylene PP.
b. Lock range can be adjusted. Lock the hand wheeldiameter 8mm–45mm (0.3"–1.8") butterfly valve.
c. Locked by one padlock, locked shackle diameter max 7mm.
d. Color: red, other colors need to be customized.

Part Code	Description
BD–F21	Suitable for butterfly valves with handle width: 8mm–42mm

10cm
BD–F21

STANDARD BALL VALVE LOCKOUT

a. BD–F03 and BD–F04 are made from standard A3 steel plate, surface treatment by high temperature spray,not easy get rust.BD–F03N is made from engineering plastic PA.
b. Special for lockout right–angle turning ball valve in off position
  BD–F03/BD–F03N suitable for DN8–DN50 valve
  Installation diameter: 0.25"(6.35mm) – 1"(25mm)
c. BD–F04 suitable for DN50–DN200 valve
  Installation diameter: 1.25"(31mm) – 3"(76mm)
d. BD–F03 and BD–F04 max diameter of padlock shackle: 10mm.
  BD–F03N max diameter of padlock shackle: 7mm
e. Color: red, other colors need to be customized.

When the lock box is closed Length of hole size: 45mm – 110mm
Part Code	Description
BD-F08	Suitable for 6.35mm(1/4")to 140mm(5")flanged ball valves

PLUG VALVE LOCKOUT

a. The lock is made of engineering plastic PP and stainless steel locking band.
b. Suitable for manual plug valves with a diameter of 1"–8".
c. Effectively applicable to such difficult–to–lock valves.
d. Durable and vandal–proof.
e. Compact size and easy to use.

A   B

Choose the right size plug valve lockout

Choose the right plug lockout by measuring the size of A and B,

If the operating wrench and the valve stem plane above the clamp can still be completely engaged, the base and clamp of the plug valve lockout can be leave on the valve for later use. At this time, just remove the plug valve cover of the padlock box to open the valve.

UNIVERSAL VALVE LOCKOUT

a. Made from engineering plastic strengthened nylon PA and stainless steel.
b. Fit the new open–ended clamp over the closed ring, used to lock out the large levels, T–shape handles and other hard–to–secure mechanical devices.
c. It can be added various accessories to make the device suitable for a range of valves.
d. Cable accessories can be used 3.2mm (1/8 ") PVC stainless steel metal cable set.
e. Universal valve lockout used to max handle width 40mm (handle max thickness 28mm).
f. Suitable for gate valve, ball valve, butterfly valve and so on.
g. The length of the lockout arm is 200mm; the height of the support rod: 170mm.

Part Code	Description
BD–F31	Lock with quarter–turn ball valve for single arm
BD–F32	Two arms to lock out 3, 4or 5–way valves
BD–F33	Using cable attachment for gate valves
BD–F34	For butterfly valves

BD–F31 / BD–F31X
Use the single arm to lock out quarter–turn ball valves.

BD–F32 / BD–F32X
Use the two arms to lock out 3, 4 or 5–way valves.

the arm length
height of the support rod

BD–F33 / BD–F33X
Use the cable attachment to lock out valves.

BD–F34 / BD–F34X
Fix the clamp on the hand shank to avoid the trigger from closing.

BD–F35 / BD–F35X
Universal use for all types of valves.

SMALL UNIVERSAL VALVE LOCKOUT

a. Made from engineering plastic strengthened nylon PA and stainless steel.
b. Fit the new open–ended clamp over the closed ring, used to lock out the large levels, T–shape handles and other hard–to–secure mechanical devices.
c. It can be added various accessories to make the device suitable for a range of valves.
d. Cable accessories can be used 3.2mm (1/8 ") PVC stainless steel metal cable set.
e. Universal valve lockout used to max handle width 23mm (handle max thickness 14mm).
f. Suitable for gate valve, ball valve, butterfly valve and so on.
g. The length of the lockout arm is 120mm; the height of the support rod: 150mm.

Part Code	Description
BD–F31X	Lock with quarter–turn ball valve for single arm
BD–F32X	Two arms to lock out 3, 4or 5–way valves
BD–F33X	Using cable attachment for gate valves
BD–F34X	For butterfly valves
BD–F35X	Universal valve lockouts for most valves

Screw stem diameter: ϕ 33mm
Lockable width: 95mm – 370mm

Nut outer diameter: ϕ 83mm
Screw stem diameter: ϕ 48mm
Lockable width: 190mm – 530mm

Part Code	Description
BD–FL01	Applicable to screw stem diameter 13mm – 19mm (1/2" – 3/4")
BD–FL02	Applicable to screw stem diameter 23mm – 32mm (7/8" – 1–1/4")
BD–FL03	Applicable to screw stem diameter 35mm – 47mm (1–3/8" – 1–7/8")

VALVE LOCKOUT

a. The lock body is made of engineering plastic PC. Toothed carbon steel sheet and stainless steel screws.
b. With self-contained tightening screw, easy to lock by yourself without tools.
c. 192mm (height) *94mm (width) *32mm (thickness) (without screw length).
d. Applicable locking range: 31mm-100mm.
e. Maximum padlock diameter: 7mm.

FLANGE BALL VALVE LOCKOUT BAG

a. The bag body is made of PC wear-resistant material, which is durable in harsh environment.
b. 3pcs safety padlocks(Diameter≤7mm) can lock on at the same time.
c. The lock bag comes with a handle storage bag to store the matching locks, which is convenient and efficient to use, can prevents the locks from being lost.
d. The fixed belt is made of PP, which makes the lock bag more stable and effective.

Part Code	Description
BD-F10	Valve head diameter ≤ 30mm

MULTIPURPOSE CABLE LOCKOUT

a. Made from impact resistant engineering plastic nylon PA, can be customized other colors.
b. Used 2.4 meter stainless steel cable, the outer layer of cable is made from anti–UV PVC (diameter 3.5mm).
c. The cable can be customized with different length and colors.
d. Locked with one padlock, lock shackle diameter is less than 7mm.

Cable length: 2.4m
Cable diameter: 3.5mm

Part Code	Description
BD–L01	Include cable
BD–L01

MULTIPURPOSE CABLE LOCKOUT

a. Made from impact resistant engineering plastic nylon PA.
b. Used 2.4 meter stainless steel cable, the outer layer of cable is made from anti–UV PVC (diameter 3mm or 4mm).
c. Innovative self–locking function, the cable lock is self–locking when it is not operated, to ensure that the cable is not stretched at will, and the locking function is powerful.
d. Permanently write labels (Chinese, English or other languages customized) to identify the operator.
e. Locked with 5 padlock, lock shackle diameter is less than 7mm.

ADJUSTABLE CABLE LOCKOUT

a. Made from impact resistant engineering plastic PC, other colors can be customized.
b. Used 1.8 meter cable, the outer layer of cable is made from anti–UV PVC (diameter 4mm or 6mm), the cable can be customized with different length and colors.
c. Withstand extra temperature of –46℃ to 149℃.
d. Locked with 4 padlocks, lock shackle diameter is less than 7mm.

Part Code	Description
BD–L11–1	Cable : 6mm*1.8m
BD–L11–2	Cable : 4mm*1.8m

Handle color: red & black
Can be customized

Suitable for different occasions, the length of the steel cable can be adjusted arbitrarily. It is widely used in chemical, electric power and petroleum development industries.

BD–L11

ECONOMIC CABLE LOCKOUT

Cable length: 2.0m
Cable diameter: 4mm

a. Made from impact resistant engineering plastic nylon PA, can be customized other colors.
b. Used 2 meter stainless steel cable, the outer layer of cable is made frorm anti–UV PVC (diameter 4mm).
c. The cable can be customized with different length and colors.
d. Locked with 4 padlocks, lock shackle diameter is less than 7mm.

Part Code	Description
BD–L21	Include cable

BD–L21

WHEEL TYPE CABLE LOCKOUT

This cable lockout is an ideal device for locking cable device.

a. Made from impact resistant engineering plastic nylon PC and brass parts, can be customized other colors.
b. Used 2 meter stainless steel cable, the outer layer of cable is made from anti–UV PVC (diameter 4mm).
c. The cable can be customized with different length and colors.
d. Locked with several padlocks, lock shackle diameter is less than 7mm.

Part Code	Description
BD–L31	Include cable
Cable length: 2.0m
Cable diameter: 4mm   key

BD–L31

WHEEL TYPE CABLE LOCKOUT

a. Made from impact resistant engineering plastic nylon PC and brass parts, can be customized other colors.
b. Used 2 meter stainless steel cable, the outer layer of cable is made from anti–UV PVC (diameter 4mm).
c. The cable can be customized with different length and colors.
d. Comes with a lock handle, easy to use.
e. Locked with several padlocks, lock shackle diameter is less than 7mm.

Cable length: 2.0m
Cable diameter: 4mm

Part Code	Description
BD–L32	Include cable, without auxiliary tools, can complete lock step by hands
BD–L32

ADJUSTABLE CABLE LOCKOUT

a. The lock body is made of stable and durable PC/ABS material.
b. It's suitable for all turbine ball valves.
c. It's used to lock the industrial ball valve in the closed state to prevent misuse.
d. Suitable for padlocks with lock shackle less than 7mm.
e. Colour: red.

BD-L12

Part Code	Description
BD-L12-1	Insulated cable: diameter 3.2mm*2.5m
BD-L12-2	Steel cable: diameter 5mm*2.5m

CABLE LOCKOUT

a. Made of ABS+PC.
b. Used 1.8 meter stainless steel cable ,the outer layer of cable is made from anti-UV PVC (diameter 4.8mm).
c. Allow 6 padlocks with lock shackle less than 7mm.
d. Colour: red.

Part Code	Description
BD-L22	Include cable

10mm
151mm
137.8mm
60mm

CABLE LOCKOUT

a. Made of PC material.
b. Used 1.8 meter stainless steel cable ,the outer layer of cable is made from anti-UV PVC (diameter 4.8mm).
c. Allow 6 padlocks with lock shackle less than 7mm.
d. Colour: red, other colors need to be customized.

Part Code	Description
BD-L62	Include cable

134mm
55mm
40mm
BD-L62

ALUMINUM CABLE LOCKOUT

a. The lock body is made of die-cast aluminum spray paint, and the stainless steel lock body can be customized.
b. It has 4mm*1.5m stainless steel cable, or the outer UV-resistant PVC 3mm*1.5m steel cable.
c. Can allow at most 8pcs safety padlocks(shackle diameter≤7mm) to lock on at the same time.
d. Appearance: aluminum natural color, aluminum spray paint red, stainless steel natural color.
e. Can customize 0.7m, 4mm cable.

Part Code	Description
BD-AL61	Stainless steel cable: 4mm*1.5m
	Steel cable: 3mm*1.5m

BD-AL61
AUTOMATIC RETRACTABLE CABLE LOCKOUT

a. Made of Polycarbonate Plastic(PC).
b. Used 1.8 meter stainless steel cable, the outer layer of cable is made from anti-UV PVC (diameter 1.5mm).
c. Automatic retraction, press the winding switch button, the cable can automatic retract and hidden in the lockout; maneuverable, portable, durable.
d. Allow 2 padlocks with lock shackle less than 7mm.

Part Code	Description
BD-L41	Include cable

BD-L41

At first, press the top button then it will upspring the lockout open; the cable can be extended according to your need.

Lightly press the winding switch button, the cable can automatic retract.

Not press the winding switch button, the cable will stop automatic retracting, at last press the top button and hangon safety padlock through the hole on the top button.

MINI CABLE LOCKOUT

a. Made from impact resistant engineering plastic nylon PA.
b. Used 0.3 or 0.5 meter stainless steel cable, the outer layer of cable is made from anti-UV PVC (diameter 1.5mm).
c. Black parts: When push it up, the cable will be unlocked; When push it down, the cable will be locked. With "LOCK OUT" on red parts for warning.
d. The cable can only be tightened up after locking, more convenient to operate.
e. Can customized labels.
f. With 6mm and 8mm diameter lock holes, suitable for different sizes' shackles.

Part Code	Description
BD-L42	Include cable

Cable length: 300mm、500mm;
Cable diameter: 1.5mm

14mm
66mm
38mm
BD-L42

φ2mm hole to set up lock.

SIMPLE CABLE LOCKOUT

a. Made from impoct resistan engineering plastic nylon PA.
b. The outer layer of cable is made from anti-UV PVC.
c. Inner material has two choices: Nylon and metal (stainless steel).

Part Code	Description
BD-L61	Includc cable Can customize cable: 3mm,4mm,5mm
Metal cable length: 1.8m
Support cable diameter 3mm, 4mm, 5mm customization;
Support cable's PVC layer color customization

Metal type   Insulation type

PNEUMATIC LOCKOUT

LOCKOUT TAGOUT

PNEUMATIC QUICK-DISCONNECT LOCKOUT

a. Made from impact resistant engineering plastic nylon PA.
b. Without the need to install a straight interlock valve, can be isolated pneumatic power, lower cost, more convenient.
c. Applied to the male fitting to isolate equipment from all compressed air sources.
d. Hole in the center of device allows for permanent storage on an air hose and a loop on the side can be used to hang the hose and lockout device.
e. Can be equpped with padlocks, lock shackle diameter of 6.4mm(1/4") or 7.1mm (9/32").

Use with padlocks

BD-Q01
AIR SOURCE LOCKOUT

a. Made from No.304 stainless steel.
b. Applied to the fittigs and prevents it from being reconnected to the pressurized air source.Fits virtually all pneumatic fittings used in manufacturing facilities.
c. Diameter: 196mm length x35mm width x3mm thickness.
d. Used together with safety padlocks and safety hasps.
e. Available in four lock holes for locking out.
f. Suitable for air supply joints with a diameter of 7mm – 20mm.

Part Code	Description
BD-Q11	Accommodate 4 safety padlock with shackle diameter ≤7mm

35mm
196mm
Use with padlocks
CYLINDER TANK LOCKOUT

a. Made from engineering plastic ABS.
   (Adding "T" after the product part code means transparent, it's made of PC material)
b. Used to lock out the tank, including the propane tanks on forklifts trucks and stand alone propane tanks.
c. Easy to avoid unauthorized operation of the valve stem.
d. Designed to fit in the tight space.

Unit: mm

Part Code	Aperture	Inner diameter	Keyhole diameter	Inside height	Description
BD-Q21 / BD-Q21T	30	80	8	25	Suitable for hole diameter less than 3.0mm

CYLINDER TANK LOCKOUT

a. Made from engineering plastic PP.
b. Prevents access to the main cylinder valve.
c. No need to match your lockout device to varying diameter and threads of cylinder caps.
d. Can be used for the maximum diameter 80mm of the neck ring.
e. Can be locked with 3 padlocks, lock shackle diameter ≤ 7mm.

LOCKOUT STATION
LOCKOUT TAGOUT

■ COMBINATION LOCKOUT STATION

standard parts introduction：

580mm

Thickness：95mm

605mm

Model: BD-B200-2
Material: engineering plastic PC
Description: mobile phone boxes, fix with screw individually or use it with lockout station.

Model: BD-B200-5
Material: engineering plastic PC
Description: engineering lockout station mask, used with lockout station.

Model: BD-B200-1
Material: engineering plastic PC
Description: mobile phone boxes, fix with screw individually or use it with lockout station.
Model: BD-B200-6
Material: engineering plastic PC
Description: hanging board clip, is used to hang safety padlock or hasp.

Model: BD-B200-4
Material: engineering plastic PC
Description: engineering lockout station mask, used with lockout station.

Model: BD-B200-3
Material: engineering plastic PC
Description: store safety padlock or mini safety lockout, used with lockout station.

● ADVANCED COMBINED LOCKOUT STATION

BD-B201   BD-B202   BD-B203   BD-B204
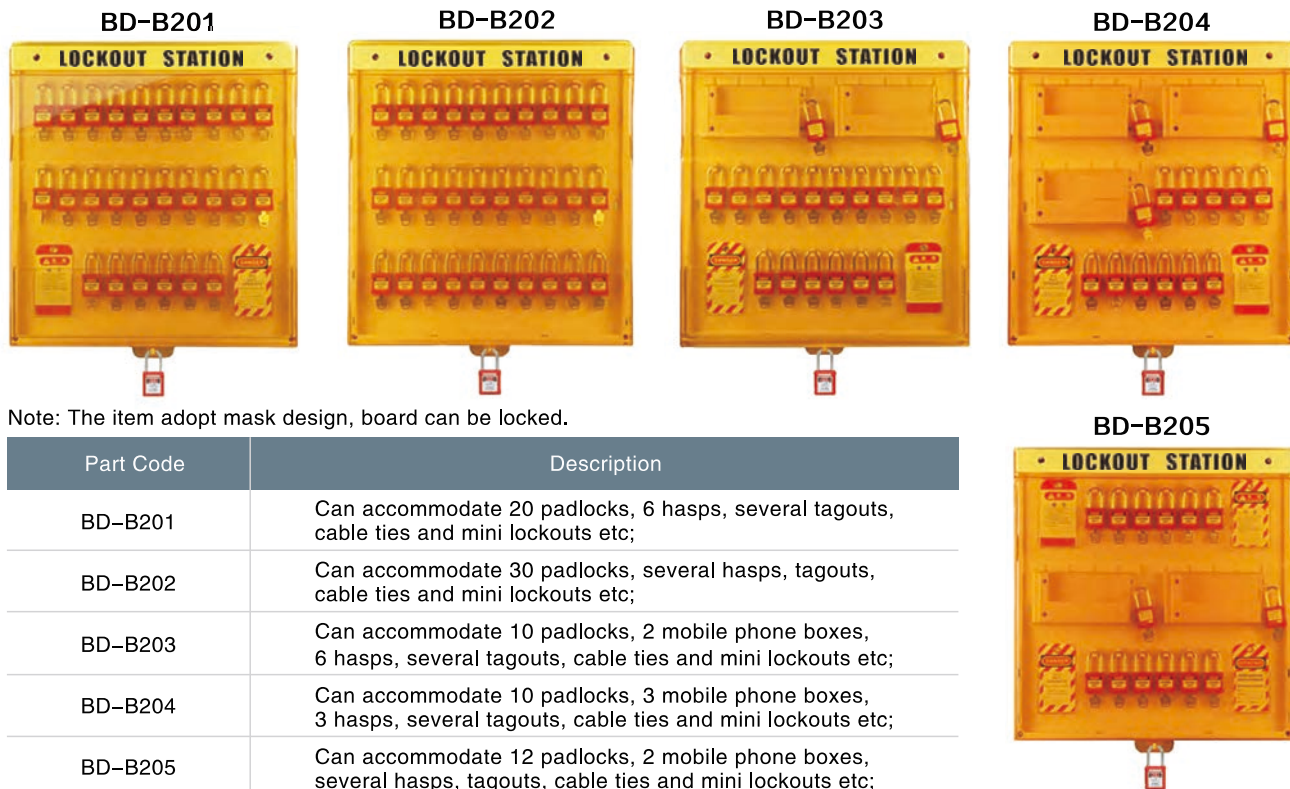

BD-B205

Note: The item adopt mask design, board can be locked.

Part Code	Description
BD-B201	Can accommodate 20 padlocks, 6 hasps, several tagouts, cable ties and mini lockouts etc;
BD-B202	Can accommodate 30 padlocks, several hasps, tagouts, cable ties and mini lockouts etc;
BD-B203	Can accommodate 10 padlocks, 2 mobile phone boxes, 6 hasps, several tagouts, cable ties and mini lockouts etc;
BD-B204	Can accommodate 10 padlocks, 3 mobile phone boxes, 3 hasps, several tagouts, cable ties and mini lockouts etc;
BD-B205	Can accommodate 12 padlocks, 2 mobile phone boxes, several hasps, tagouts, cable ties and mini lockouts etc;

● ADVANCED COMBINED LOCKOUT STATION

BD-B206（W）   BD-B207（W）   BD-B208（W）   BD-B209

BD-B210（W）
Note: The item adopts mask design, "W" means lockout station without mask; board can be locked.

Part Code	Description
BD-B206(W)	Can accommodate 10 padlocks, 2 A4 size written boards (can clip working tickets),several hasps, tagouts, cable ties and mini lockouts ets; 【Can choose the lockout station with mask】
BD-B207(W)	Can accommodate 2 A4 size written boards (can clip working tickets),several hasps, tagouts, cable ties and mini lockouts ets; 【Can choose the lockout station with mask】
BD-B208(W)	Can accommodate 2 A4 size written boards (can clip working tickets), 2 mobile phones boxes,several padlocks, hasps, tagouts, cable ties and mini lockouts ets; 【Can choose the lockout station with mask】
BD-B209	Can accommodate 6 mobile phones boxes；
BD-B210(W)	Can accommodate 10 padlocks, one A4 size written boards (can clip working tickets), 2 mobile phones boxes, several tagouts, cable ties and mini lockouts ets; 【Can choose the lockout station with mask】

■ OPEN LOCKOUT STATION

a. Made from plastic PE, durable, chemical resistant and low temperature resistant.
b. Can accommodate various of padlocks, hasps, several tagouts and cable ties etc.

385mm

290mm

| Part Code	Description
BD-B301	Width x height: 385mm x 290mm 2 hasp positions, each accommodates 2 hasps; 7 padlock positions, each accommodates 1 padlock; Tag position can accommodate several tagouts and cable ties.
BD-B301

■ OPEN LOCKOUT STATION

a. Made from plastic PE, durable, chemical resistant and low temperature resistant.
b. Can accommodate various of padlocks, hasps, several tagouts and cable ties etc.

360mm

350mm

Part Code	Description
BD-B302	Width x height: 360mm x 350mm 2 hasp positions, each accommodates 2 hasps; 16 padlock positions, each accommodates 1 padlock; Tag position can accommodate several tagouts and cable ties.

BD-B302

COMBINED LOCKOUT ATATION

Made from engineering plastic PC. Integrated design, strong and durable.

Used to hang safety padlock or hasp.

With mask design.

Thickness: 65mm

Used to put hasps and cable ties.

Can be locked

BD-B102

393mm

558mm

Part Code	Description
BD-B101	With 4 padlock positions, each position can accommodate 2 padlocks; 1 hasp, several tagouts, cable ties, etc.
BD-B102	With 10 padlock positions, each position can accommodate 2 padlocks; 4 hasp, several tagouts, cable ties, etc.
BD-B103	With 8 padlock positions, each position can accommodate 2 padlocks; Beside can accommodate, various of padlocks, several tagouts, cable ties, etc.
BD-B104	With 8 padlock positions, each position can accommodate 2 padlocks; Beside can accommodate various of padlocks, several tagouts, cable ties, etc.
BD-B105	With 4 padlock positions, each position can accommodate 2 padlocks; Beside can accommodate various of padlocks, several tagouts, cable ties, etc.
BD-B1100	With 8 padlock positions, each position can accommodate 2 padlocks; Beside can accommodate various of padlocks, several tagouts, cable ties, etc. (This model is BD-B103 and BD-B104's combination lockout station)

STEEL SAFETY LOCKOUT KIT STATION

Company：mm

Part Code	Description
BD–B4–10	Can accommodate 10 boxes;
BD–B4–20	Can accommodate 20 boxes;
BD–B4–30	Can accommodate 30 boxes;
BD–B4–40	Can accommodate 40 boxes;
BD–B4–50	Can accommodate 50 boxes;

Instruction:
Various types of lockout kit capacity can be customized in size, and the size can be customized according to needs. The following dimensions are factory standard types.

BD–B4–10
320(L) x 1350(H) x 150(W)

BD–B4–20
600(L) x 1350(H) x 150(W)

BD–B4–50
1350(L) x 1350(H) x 150(W)

PORTABLE PADLOCK LOCKOUT

a. Made from injected engineering plastic reinforced nylon.
b. Chinese or English labels, other language labels can be customized.
c. The padlock and key can be carried and used at the same time.
d. Suitable for hanging up to 12 padlocks with lock shackle diameter ≤ 7mm.
Part Code	Description
BD–B41	Can be customized

Note: Also can be used in key management in addition to the graphical lock management function.

SAFETY TAG STATION

a. It is the combination of steel plate which surface high temperature spraying treatment and tagout box which is made from engineering plastic PC.
b. Can accommodate 10 tagout boxes, each tagout box can accommodate 20 pieces tagout.
c. Can customize 5,10,15, 20 tagout boxes.
d. Can be customized different colors.

OPEN LOCKOUT STATION
Aluminum edge:
Prevent board cracking.

Short hook:
Used for small items, such as padlock.

Long hook:
Used For larger items.

Warning sticker:
With bright tone, warning slogan, direct and practical.

a. Suitable for small companies and large departments to manage centrally.
b. The board is made from hard plastic PPC, outer frame is made of aluminum in order to prevent it from falling down.
c. Shadow contour is convenient to inventory and storage.
d. Can customize design and logo etc.

Part Code	Description
BD-X02	Width x height x thickness: 233mm x 195mm x 95mm

BD-X02

PORTABLE STEEL SAFETY LOCKOUT KIT

a. Made from steel plate whose surface is treated by spraying plastic under high temperature.
b. Device design for key store when large scale equipment shut down.
c. Can used as mini portable lockout box, can accommodate several tagouts, hasps, mini lockouts etc.
d. Double function: wall mounting type or portable.
e. Integrated store space can accommodate 12 padlocks orderly or hundreds of keys scatteredly.
f. Up to 14 workers can lock it at the same time.
g. Can be customized other colors.

Part Code	Description
BD-X03	Width x height x thickness: 163mm x 351mm x 95mm

BD-X03

PORTABLE STEEL SAFETY LOCKOUT KIT

a. Made from steel plate whose surface is treated by spraying plastic under high temperature.
b. Several person can lock the important parts at the same time, can accommodate 12 padlocks.
c. Can used as mini lockouts lockout box, can accommodate several tagouts, hasps, mini lockouts etc.

Part Code	Description
BD-X04	Width x height x thickness: 235mm x 150mm x 185mm

BD-X04

SMALL HANGING PLASTIC SAFETY LOCKOUT KIT

a. Made of engineering plastic ABS and PC.
b. With transparent cover.
c. Can be locked by padlocks with shackle diameter less than 7mm.
d. Can be locked by 8 safety padlocks at the same time, convenient for management.
e. It has 6 hooks inside and 2 hooks outside.

Part Code	Description
BD-X21	Width x height x thickness: 98mm x 180mm x 120mm (the thickness of the most thickest part)

BD-X21

PORTABLE MULTIPURPOSE PLASTIC SAFETY LOCKOUT KIT

a. Made of engineering plastic ABS and PC.
b. With transparent cover.
c. Can be locked by padlocks with shackle diameter less than 7mm.
d. Can be locked by 8 safety padlocks at the same time, convenient for management.
e. It has 6 hooks inside.

Part Code	Description
BD-X22	Width x height x thickness: 200mm x 162mm x 90mm

BD-X22

WALL-MOUNTED FUNCTIONAL SAFETY LOCKOUT KIT

a. The high-strength steel plate is stamped and the surface is treated with high-temperature plastic spray, which is not easy to oxidize and rust.
b. Several people can lock the important parts at the same time, can accommodate 10 padlocks.
c. Can used as mini portable lockout box, can accommodate several tagouts, hasps, mini lockouts etc.
d. It has transparent acrylic visual door panel,realizing visual management.

| Part Code	Description
BD-X24	Width x height x thickness: 230mm x 150mm x 90mm

BD-X24

LOCKOUT MANAGEMENT STATION
a. Made from surface high temperature spraying plastic treatment steel plate.
b. With 20 padlock positions, each padlock position can hang 2 padlocks, 2 hasps, 40 pieces tagouts.
c. Lockout management available.
d. Can be customized made non-perspective panel.

large type circuit breaker lockout BD-D16 × 1.

Part Code	Description
BD-Z13	Suitable for electrician daily working operation

BD-Z13

■ SAFETY LOCKOUT COMBINATION BOX

Including：
Lockout portable box BD-Z03 × 1; Electrical plug lockout BD-D46 × 1;
Special pen for PVC tag BD-P41 × 1; Tagout BD-P01 × 10;
Nylon lockout hasp BD-K42 × 1; Nylon lockout hasp BD-K44 × 1;
Double-end aluminum hasp BD-K61 × 2; Adjustable gate valve lockout BD-F16 × 1;
Steel shackle safety padlock BD-G01 × 3; Nylon shackle safety padlock BD-G11 × 2;
Multi-function circuit breaker lockout BD-D14 × 4;
Multi-function circuit breaker lockout BD-D15 × 2;
Multi-function circuit breaker lockout BD-D16 × 1;
Automatic retractable cable lockout BD-L41 × 1;

Part Code	Description
BD-Z14	Suitable for electrician daily working operation

BD-Z14

■ SAFETY LOCKOUT COMBINATION BOX

Including：
Lockout portable box BD-Z03 × 1; Tagout BD-P01 × 10;
Steel shackle safety padlock BD-G01 × 5; Nylon shackle safety padlock BD-G11 × 5;
Steel lockout hasp BD-K01 × 1; Steel lockout hasp BD-K02 × 1;
Aluminum lockout hasp BD-K11 × 1; Aluminum lockout hasp BD-K12 × 1;
Nylon lockout hasp BD-K42 × 1; Aluminum lockout hasp BD-K53 × 1;
MCB lockout BD-D01 × 1; MCB lockout BD-D02 × 1; MCB lockout BD-D03 × 1;
MCB lockout BD-D04 × 1; Clamp-on breaker lockout BD-D11 × 1;
Clamp-on breaker lockout BD-D12 × 1; Clamp-on breaker lockout BD-D13 × 1;
Electrical plug lockout BD-D42 × 1; Electrical plug lockout BD-D43 × 1;
Emergency stop lockout BD-D51 × 1; Emergency stop lockout BD-D52 × 1;
Emergency stop lockout BD-D53 × 1.

Part Code	Description
BD-Z15	Suitable for electrician daily working operation

BD-Z15

■ SAFETY LOCKOUT COMBINATION KIT

Including：
Lockout portable box BD-Z03 × 1; Flashlight BD-SP-3 × 1; Lockout station BD-B201 × 1;
Steel shackle safety padlock BD-G01 × 5; Nylon shackle safety padlock BD-G11 × 5;
Steel lockout hasp BD-K01 × 1; Steel lockout hasp BD-K02 × 1; Tagout BD-P01 × 10;
Aluminum lockout hasp BD-K11 × 1; Aluminum lockout hasp BD-K12 × 1;
Nylon lockout hasp BD-K42 × 1; Aluminum lockout hasp BD-K53 × 1;
MCB lockout BD-D01 × 1; MCB lockout BD-D02 × 1; MCB lockout BD-D03 × 1;
MCB lockout BD-D04 × 1; Clamp-on breaker lockout BD-D11 × 1;
Clamp-on breaker lockout BD-D12 × 1; Clamp-on breaker lockout BD-D13 × 1;
Electrical plug lockout BD-D42 × 1; Electrical plug lockout BD-D43 × 1
Emergency stop lockout BD-D53 × 1; Emergency stop lockout BD-D51 × 1
Emergency stop lockout BD-D52 × 1; Gate valve lockout BD-F11 × 1;
Gate valve lockout BD-F12 × 1; Gate valve lockout BD-F13 × 1;
Gate valve lockout BD-F14 × 1; Gate valve lockout BD-F15 × 1.

Part Code	Description
BD-Z16	Luxury lockout bag

BD-Z16

■ SAFETY LOCKOUT COMBINATION BAG

Including:
Lockout portable bag BD-Z04 × 1; Tagout BD-P02 × 10
Steel shackle safety padlock BD-G01 × 6; Transparent box BD-E01 × 2;
Steel cable gun lock BD-QS01 × 2; Aluminum lockout hasp BD-K54 × 1;
Adjustable cable lockout BD-L11 × 1; Universal wall-type switch cover BD-D23 × 2;
Medium circuit breaker lockout BD-D17 × 3; Medium circuit breaker lockoutBD-D18 × 3;
Electrical plug lockout BD-D41A × 1; Electrical plug lockout BD-D42A × 1.

Part Code	Description
BD-Z19	Suitable for electrician daily working operation

BD-Z19

■ SAFETY LOCKOUT COMBINATION BAG

Including：
Lockout handbag BD-Z05 × 1; Nylon lockout hasp BD-K43 × 1;
Special pen for PVC tag BD-P41 × 1; Tagout BD-P01 × 10;
Nylon shackle safety padlock BD-G11 × 1;
MCB lockout BD-D01 × 1; MCB lockout BD-D02 × 1; MCB lockout BD-D03 × 1;
MCB lockout BD-D04 × 1; Clamp-on breaker lockout BD-D12 × 1;
Medium circuit breaker lockout BD-D17 × 1;
Medium circuit breaker lockout BD-D18 × 1;
Simple circuit breaker lockout BD-D05-1 × 1;
Simple circuit breaker lockout BD-D05-2 × 1.

Part Code	Description
BD-Z20	Simple and easy lockout bag

BD-Z20

■ SAFETY LOCKOUT COMBINATION BAG

Including：
Lockout waist bag BD-Z06 × 1; Tagout BD-P02 × 10;
Steel lockout hasp BD-K01 × 1;
Steel shackle safety padlock BD-G01 × 1;
Steel cable gun lock BD-QS01 × 1;
Medium circuit breaker lockout BD-D17 × 2;
Medium circuit breaker lockout BD-D18 × 1.

| Part Code	Description
BD-Z22	Simple and easy lockout bag

BD-Z22

LEAD SEAL LOCK
## LOCKOUT TAGOUT

■ ANTI-FAKE, ANTI-THEFT LEAD SEAL LOCK

a. The lead seal is used for sealing and preventing it from being opened by unauthorized personnel or others, Once the lock is locked in right way, it cannot be opened unless it is violently broken (i.e. cut). A broken lead seal cannot be reused to prevent theft, disclosure, damage, replacement, etc. Because of this character, the lead lock cannot be reused like other lock products.
b. Easy to install, simple structure, safety protection, good anti-theft, firm and durable, high hard treatment, strong endurance, not easy to aging, good insulation performance, acid resistance, temperature resistance, corrosion resistance, good toughness for use.
c. The application fields are finance, electric power, general merchandise, shipping, instrument, military industry, transportation, material supervision, garden, petrochemical, customs, medical treatment, food, military and other related safety requirements industries.
● HEXAGONAL PLASTIC LEAD SEAL LOCK

a. Coated with new ABS eco-friendly plastic, core of lock body is zinc alloy.
b. Lock cable material is aviation steel cable, diameter is 1.8mm.
c. Maximum tension up to 200KG.
d. Can customize color, any text graphics, laser printing, heat transfer printing.

| Part Code	Description
BD-QF01	Standard steel cable length is 300mm, can be customized.

unit: mm

BD-QF01
Customize the shell color of lead seal lock

● SQUARE PLASTIC LEAD SEAL LOCK

a. Coated with new ABS eco-friendly plastic,core of lock body is zinc alloy.
b. Aviation steel cable diameter is 1.8mm,black plastic coated steel cable
c. diameter is 2.0mm.
   Maximum tension up to 200KG.
d. Can customize color, any text graphics, laser printing, heat transfer printing.
Part Code	Description
BD-QF02-1	Standard steel cable length is 320mm, can be customized.
BD-QF02-2	Standard steel cable length is 320mm, can be customized.

unit: mm

BD-QF02-1
Aviation steel cable type

BD-QF02-2
Black plastic coated steel cable type

● ALUMINUM ALLOY STEEL CABLE LEAD SEAL LOCK (Smooth type)

a. The lock body is made of high quality aluminum alloy.
b. Lock cable material is high quality aviation steel cable.
c. Lock body color can be customized.

Part Code	Description
BD-QF03-1	Steel cable φ 1.4mm,length 300mm; Maximum tension is up to 300KG
BD-QF03-2	Steel cable φ 1.8mm,length 300mm; Maximum tension is up to 450KG
BD-QF03-3	Steel cable φ 2.3mm,length 200mm; Maximum tension is up to 500KG
BD-QF03-4	Steel cable φ 4mm,length 200mm; Maximum tension is up to 1000KG
BD-QF03-5	Steel cable φ 4.7mm,length 250mm; Maximum tension is up to 1200KG

BD-QF03-2
BD-QF03-3
BD-QF03-4
BD-QF03-5

● ALUMINUM ALLOY STEEL CABLE LEAD SEAL LOCK (Concave and convex type)

a. The lock body is made of high quality aluminum alloy.
b. Lock cable material is high quality aviation steel cable.
c. Lock body color can be customized.

Part Code	Description
BD-QF04-1	Steel cable φ 1.4mm,length 300mm; Maximum tension is up to 300KG
BD-QF04-2	Steel cable φ 1.8mm,length 300mm; Maximum tension is up to 450KG
BD-QF04-3	Steel cable φ 2.3mm,length 200mm; Maximum tension is up to 500KG
BD-QF04-4	Steel cable φ 4mm,length 200mm; Maximum tension is up to 1000KG
BD-QF04-5	Steel cable φ 4.7mm,length 250mm; Maximum tension is up to 1200KG

Can customize any text graphics

BD-QF04-1   BD-QF04-2   BD-QF04-3   BD-QF04-4   BD-QF04-5
Steps to use steel cable lead seal lock

1

2 Into the hole

3 Pull-down
* Cut the lock cable to remove the seal.

• HIGH SECURITY BULLET LEAD SEAL LOCK

a. Lock shell material is new ABS eco–friendly plastic.
b. Lock rod and barrel are made of Q235 steel. Maximum tension is up to 1T.

Steps to use bullet lead seal lock

A：Clamp, pull and unload the lock

■ PLASTIC COATED LAMINATED STEEL CABLE GUN LOCK

a. Laminated steel body and rubber protective layer prevent gun body from corrosion and wear, solid and durable.
b. Application: Suitable for most rifles, shotguns, pistols and trigger guns.
c. Function: Keep the gun body locked so that the gun can't be used to prevent accidents.

Cable diameter: 5.5mm
Cable length: 390mm

75mm · 20mm · 30mm · 34mm
